

Virtual Riding, Real Results

Your next great cycling season starts today—no matter the weather. By Michael Frank

Allen Lim, Ph.D. Physiology Expert

**YOUR LEGS CRAMP.
YOUR HEART POUNDS.
YOUR LUNGS BURN.**

Winning never felt better.

Every rider knows pain is the price of victory. To put yourself in a position to win, you need a trainer that promises to help you reach your highest level of performance. The JetFluid Pro enables smooth

PRO SERIES JetFluid Pro

accelerations and decelerations for the most realistic ride a trainer can offer. A cooler operating temperature delivers long-lasting performance.

A more consistent power curve from unit to unit.

What's more, our unique single-sided frame mount lets you install and remove your bike quickly. Its wider stance provides a stable ride. And the frame folds flat for convenient storage. To learn more, please visit cycleopsproseries.com.

Unique design channels 100% of cooling intake air.

CycleOps SuperMagneto Pro Indoor group-training sessions don't need to be high-tech: Take turns hosting your own indoor cycling class, and use a solid trainer like CycleOps's new SuperMagneto Pro. Key features include the easiest wheel mount we've ever used, an adjustable foot so the unit is always stable, and a resistance unit with four settings that get tougher the harder you pedal. In our experience, meeting with friends even just once a week to compete will encourage you to train hard the rest of the time because of that nifty thing called your ego. PRICE: \$399 INFO: cycleops.com
